

Oil Modified Wood Sports Floor

WP-1 Super Pinnacle Wood Finish & WP-2 Wood Finish. These oil modified urethanes consist of urethane resins and drying oils to produce durable resilient wood finishes. Their high gloss and color enhances the natural beauty of the wood. A waterless cleaner can be used to help maintain the floors and keep them in tournament condition.

WP-7 HS VOC 350 Wood Finish & WP-8 HS VOC 450 Wood Finish. WP-7 HS VOC 350 consists of urethane, phenolic and tung oil resins.

The WP-8 HS VOC 450 consists of linseed oil. These high solids VOC compliant wood coatings have excellent resistance to rubber burns and marks. In addition, they can be used in areas where the VOC limit is 350 g/l or 450g/l of volatile organic components. A wood floor cleaner can be used to help maintain the floors and keep them in tournament condition. New wood floors require only two coats for maximum protection.

WP-9 Satin Urethane Wood Finish - A satin oil modified urethane that is extreme durable.

WP-11 Urethane Wood Seal - An oil modified urethane wood sealer. Light in color and exhibits excellent penetration into the wood.

WP-15 Waterless Cleaner Five Star - This wood floor cleaner restores and cleans wood floors without moisture. It prepares wood floors for reapplication of solvent based sealers or finishes. It is also excellent for tack ragging prior to the application of solvent based gym finishes. When used as a regular maintenance cleaner, it removes wax, food stains, rubber burns and never leaves a greasy film or residue.

WP-16 Dust Mop Treatment - Crystal clear all purpose dust mop treatment.
